

December, 2011

Dear Manville Faculty & Staff:

We want to give you money for creative and innovative programs **for the 2012 school year!**

Hopefully by now you are getting to know our organization fairly well - **We are the Manville Education Foundation.** We are an independent, non-profit organization dedicated to enhancing and enriching the educational opportunities available to students attending Manville Public Schools.

Part of our mission is to economically support innovative teaching activities and programs that augment the education and curriculum you can deliver to your students. Through this funding we provide you with the opportunity to experiment with new programs outside of the normal school budget & curriculum.

If you think you have such a program and want it to be funded by the MEF, simply fill out the attached grant application completely and return it to Dr. Johanna Ruberto, Superintendent of Schools, 410 Brooks Blvd, Manville, NJ 08835, absolutely no later than **January 20, 2012**. We will review the application and you will be notified on or around **February 24, 2012** as to whether your grant was awarded.

Please be aware that these grant funds are not to be used for **equipment, transportation or food**. If you have questions about the Manville Education Foundation and the grant application, please direct any questions or clarifications to Barbara Snyder (908) 725-1934 .

Sincerely,

Barbara Snyder

Barbara Snyder
Chairperson, Manville Education Foundation
