August 2020

Dear Parents, Guardians and Staff Members:

In Compliance with the U.S. Environmental Protection Agency (EPA), Asbestos Hazard Emergency Response Act (AHERA), we have performed school building inspections for asbestos-containing building materials and have developed an AHERA Asbestos Management Plan. These facilities findings and asbestos management plans are on file in the District administrative office for public review.

The EPA requires us to perform surveillances of the asbestos materials every six (6) month and to conduct re-inspections every three years.

No significant changes in the asbestos materials condition were noted during the 2020 surveillance of these District schools.

All asbestos materials are in satisfactory condition and we shall continue to manage them in place, as recommended by the accredited management planner.

The results of the surveillance are on file in the management plan in the District administrative office.

Please contact Keith Gardner, Supervisor of Buildings and Grounds, regarding questions pertaining to District AHERA Management. (908) 231-8544
